بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Al Hamdulillah, by Whose Grace, Mercy and Special Favor all righteous deeds are realized! He uses whom he chooses in the realization of such works from among His bondsmen, and they are indeed the most fortunate of creation!

In reflection of this 'Sunnah' of Allah, the saying attributed to our Prophet Muhammad ﷺ: 'Who does not thank the people does not Allah'

I therefore would like to express my special appreciation to the following:

1. A very special appreciation must be held for those who actually 'brought to life' so to say, the black and white conceptualization of UBM from its obscure beginning as figments of imagination. Long tedious hours were spent in deliberations, discussions and debates before any tangible structure for UBM saw the light of day! Although many had some input into this process, the core participants of these sessions, to the best of my recollection, were: **Ashraf Usman, Asif Misbah, Pervaiz Ahmed, Dr. Zeeshan Ahmad, Mufti Najeed Khan**. I could safely say that the birth of UBM was the result of their efforts, concern and sacrifices, by the Tawfiq of Allah Ta'aala!
2. Another key contributor to the gelling of UBM in its formative stages, as well as continuous support and collaboration: **Mufti Atif Karamat, Mufti Syed Hesham Maghrebi** and the entire **Nafeey Idara**, their Ulamaa' and patron **Brother Shehzad Elahi**.
3. **Maulana Muhammad Suhail** and his entire team of **Deen ka Ihya** who have contributed to the Ummah an unparalleled and unprecedented work: **Islami Tariqat Tijarat**, with similar works completed or ongoing in all the major areas of life. This work was a key reference base for the development of the model, as was the extremely beneficial interaction with MI Suhail and his team.
4. **Mufti Ameenullah Shaikh** Former head of coordination must be remembered for his relentless pursuit in overseeing the difficult work of coordination and follow up of the UBM teams and advisors, wonderfully arranging and managing the many gatherings and events that lead to the completion of the model, and general value addition to whatever had to be done!
5. **Mufti Muhammad Aftab and Mufti Muhammad Ataullah** our Former full time research scholars whose diligent and sincere hard work culminated in the first drafts of the actual documentation of the model.
6. **Brother Sohail Khan** for 'always being there' for whatever assistance was required!
7. Last but not least, perhaps in fact the most, **Muhammad Faisal, Head of UBM Advisory Services**, who, by Allah's Tawfiq, as **UBM Project Manager** was, and continues to be, the catalyst that brought UBM from an obscure potpourri to the final present structure and documentation of the model, giving it its professional look, feel and applicability. Add to that; a) the major credit for the website, b) the *Culture Development Guidelines*; a critical and truly unique tool to define and monitor culture development, c) development and conducting of trainings.....and the list goes on of just sincere, hard, quality work!
8. **Sister Zahra Baintner**, for her important contribution in compiling the *Glossary of Terms*.
9. **AL Khair CQW**; entire management and staff for their continuous support, cooperation and contribution as the "cradle" of UBM, as it was there that the concept of UBM originated as an Ultimate Vision of Al Khair, and from there the R&D actually was initiated and continued to be, in a manner of speaking, the UBM 'lab'.

May Allah Ta'ala accept all their good works and grant them all, (and so many other contributors not mentioned by name, Allah Ta'ala is well aware of them) the best of recompense for their efforts and contributions, and make it "Sadaqah Jariyah" for them, and 'Khair, Barakah and Naf'a for the entire humanity, ameen,

Hashim Ahmad
